

AQUA 8

The Aqua 8 spa, with room for five, has been manufactured for domestic and residential use. It gives the most complete massage circuit on the market and is particularly suitable for tall people, who can enjoy a relaxing or therapeutic spa without the discomfort they may find in other spas that are too shallow or narrow.

Whatever the spa user's build or height, the 55 hydromassage jets and 16 air nozzles in the Aqua 8 spa give an adjustable power massage that reaches all the muscles in the body.
